

## SERAFIMA MADAN | WEB DEVELOPER

I am an ambitious and hard working person who after years of running an HR department, fell in love with coding. For me, development is more than just writing code. Is to communicate and work well with others in a team, to be curious and open to criticism and different approaches, to solve problems and to never stop learning. I'm looking for an opportunity to continue doing what I love, in a challenging but friendly environment.
